RESPONSE REQUEST FOR CONTINUED EXAMINATION

Sir:

In response to the office action of September 18, 2002, please amend the aboveidentified application as follows:

In the claims:

Please amend claim 34 as follows:

- (Twice amended) A method of determining the risk associated with a user's portfolio by simulating changes to the composition of a simulated dynamic portfolio under a plurality of possible future scenarios at a plurality of future time steps, said method comprising the steps of
- (a) generating a simulated dynamic portfolio, said simulated dynamic portfolio comprising a plurality of simulated instruments and having an initial composition that corresponds to the composition of the user's portfolio;
